Title: Veterans Health Administration (VHA) Office of Community Care (OCC) Contractor Training Program Assessment Survey

OMB Control Number: 2900-NEW.

Type of Review: New collection.

Abstract: The legal authority for this data collection is found under 38 USC, Part I, Chapter 5, Section 527, authorizing the collection of data that will allow measurement and evaluation of the Department of Veterans Affairs Programs, the goal of which is improved health care for Veterans. Further, pursuant to Section 122 of the MISSION Act of 2018, the VHA Office of Community Care (OCC) will use this data collection to improve its training program and report to Congress regarding the training program’s effectiveness.

Section 122 of the MISSION Act of 2018 requires VA to develop and conduct a training program for VA opioid prescribers, as established under section 131. It also requires the VA to evaluate and report on the program annually. As part of this effort, the VHA OCC has developed a survey to assess its eLearning training modules with Patient-Centered Community Care (PC3) and Community Care Network contractors. The purpose of the survey is to evaluate and report the effectiveness of this training program for contractors. The

results of the survey will allow OCC to refine and improve the various training modalities and associated materials for the most effective training program and provide an annual report to Congress.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
